Dear A. reached home <sup>at 6:19</sup> quite weary. at quarter to six. gave first attention to watering my "plantation", wanted to water you but feared it <sup>or</sup> be harmful at mid-day. hope you can save something. <sup>of it</sup> It was so <sup>of garden</sup> helpful your coming to the station. I much appreciated it. I've got to be a child again. had a nice visit. & think I was smart to get through it. I send a kiss - for each of the dear children. & forgot to give them in my haste to get the min. aunt J & T.
